Career Objective / Summary

Summary

Passionate and motivated Junior Front-End Developer with less than a year of hands-on experience in front-end development. Currently expanding expertise in React to enhance skills and stay updated with modern development practices. Recently graduated from a two-year intensive program at the IBI specializing in Computer Science and Programming, following my education at the Commercial Institute. Eager to leverage my foundational knowledge and growing expertise in a dynamic Junior Front-End Developer position.

Skills and Competencies

- HTML5, CSS3, JavaScript
- Responsive Design and Cross-Browser Compatibility
- Basic understanding of web performance optimization
- React (currently studying and building projects)
- Familiar with Bootstrap and jQuery
- Git and GitHub for code collaboration and version management

- Ability to learn and adapt to new technologies quickly
- Strong analytical skills for troubleshooting and debugging
- Effective communication skills for working within a development team
- Experience in collaborating with designers and back-end developers
- Time Management
